

## StyleSeat - Online Salon Management System

Salons play an important role in our day to day lives. Although they do not play a direct impact on a person's life, visiting a salon improves a person's aesthetic qualities thereby establishing the person at a higher position in society. On a day to day basis people end up in salons and parlors to shave their beards or to do make up.

From the above needs it seems necessary to have a system which manages the appointments for the salons so as to avoid unnecessary confusion and chaos & also long queues can be avoided. Thus, I built Style Seat, an online salon management system which cater to the needs of the customer in relation with any activity related to salon services. By just clicking a button any individual can book an appointment at his convenient time.

StyleSeat shall provide an innovative method for customers to book appointments to their favorite salons in their locality. In case a customer has shifted to another location, all salons in the vicinity will be displayed to the customer who can easily select a nearest salon. Selection of salons shall be followed by allowing the customers to book appointments with desired salons at desired time for desired services. The salons will list their services provided and available time before a customer books an appointment. Besides the customers can avail of the wallet system which would reduce hassle of carrying cash and coins. Also regular customers would be granted coupons to avail discount at selected salons.

StyleSeat provides salon to broadcast advertisements on our website at out website at a nominal fee thereby popularizing their salons as well as reducing unwanted costs spent on advertising their salons through newspapers or hoardings. It also allow customers to interact with each other using a chat system so that friends can suggest opinions on various salons as well as a customer review system to rate the salon they have visited.

Thus, the hassles and long queues of waiting for salon services can be diminutive by using a simple online solution – StyleSeat.
